CALL FOR PAPERS

The 4th EURASIP Conference focused on Video / Image Processing and Multimedia Communications (EC-VIP-MC) will be held at the Faculty of Electrical Engineering and Computing, University of Zagreb, Croatia, during 2-5 July 2003. The European Association for Speech, Signal and Image Processing (EURASIP) initiated this type of conference, in order to start a new tradition of conferences, each devoted to a specific area of discipline. The 2003 EURASIP Conference is the fourth biennial conference promoted by EURASIP and organised by Faculty of Electrical Engineering and Computing, University of Zagreb, Croatia. The first conference was organised in Prague, Czech Republic (1997), second in Krakow, Poland (1999), third in Budapest Hungary (2001). The aim of the EC-VIP-MC is to promote the interface of researchers involved in the development and application of methods and techniques within the framework of video/image processing and multimedia communications. The scientific program includes keynote and invited lecture by eminent international experts and contributed papers. Papers accepted by two independent reviewers will be published in Conference Proceedings available at the Conference and abstracted in the INSPEC database.

TOPICS

- Image and Video Processing
